

# Bride-And-Seek

By Celine Shih南湖國小四年級

This is the story that has been really popular in Taiwan, Taipei for about 5 years-at least that's how long I have been hearing it...

Back in '75 a young couple, both 18, decided to get married right after high school. The father of the bride lived in Taipei in a mansion and was able to afford a big wedding for them. They got married and the wedding was beautiful.

After about 20 minutes at the wedding, everyone had been found except the bride. Everyone looked everywhere and tore whole place apart looking for her. After a few hours the groom was furious, thinking the bride was playing a terrible trick. Eventually, everyone went home.
